About NASA SEWP VI

NASA Solutions for Enterprise-Wide Procurement (SEWP) VI is a Multiple Award Government-Wide Acquisition Contract (GWAC) that offers a \$20B ceiling per prime contract and a 10-year ordering period.

SEWP VI was created to allow NASA and federal agencies to acquire Information Technology, Communication and Audio Visual (ITC/AV) solutions and services from a suite of contractors offering a variety of business sizes, capabilities, products and services. The vehicle provides a streamlined procurement process, best-of providers and solutions, and above all convenience and value for federal customers.

The GWAC's core purpose is efficient, high-quality procurement of commercial IT, communications, ITC/AV products, cloud, cybersecurity and related professional services. SEWP VI is divided into three categories:

- Category A: IT Solutions**
Information technology, communications and audio-visual (ITC/AV) products, and product-based services
- Category B: Enterprise-Wide IT Service Solutions**
Large, integrated service solutions delivered at the enterprise level
- Category C: IT Mission-Based Services — restricted to small businesses**
Services tied to a specific agency mission or program — OM Group Inc. holds a Category C contract

CAGE code / UEI	57UD9 / JKWJLKJRP1J1

Who to Contact

Orders are placed through the NASA SEWP VI Program Office at sewp.nasa.gov/sewpvi. For anything relating to OM Group Inc., use the contacts below.

SEWP VI PROGRAM MANAGER

Jamison Glover

j.glover@omgroupinc.us
571-208-9623

SEWP VI DEPUTY PROGRAM MANAGER

Aly Baumann

a.baumann@omgroupinc.us
619-993-2711

How to obtain a quote

To request a quote for services, contact OM Group's SEWP VI Program Manager, Jamison Glover, at j.glover@omgroupinc.us or 571-208-9623.

How to troubleshoot a problematic order

For any ordering issue, or if you are experiencing problems with an OM Group Inc. SEWP VI order, contact our SEWP VI Program Manager, Jamison Glover, at j.glover@omgroupinc.us or 571-208-9623.

How an Order is Placed

The internal ordering process of each agency varies. The Purchase Requests (PR) and Delivery Orders (DO) issued against a SEWP contract are defined by the issuing agency and are not uniform across NASA SEWP procurement. A typical process is shown below.

- 1 The customer submits the order request to the SEWP VI Program Office (PMO) by email (sewporders@sewp.nasa.gov) or fax (301-286-0317).
- 2 The SEWP VI PMO enters the order, or Purchase Request (PR), into the SEWP VI system and assigns it a case number.
- 3 The PR is sent to the appropriate agency's procurement office, and a Delivery Order (DO) is issued.
- 4 The SEWP PMO reviews, processes and tracks the issued Delivery Orders and forwards them to the contract holders.

Information required on each Purchase Request

- Date of order
- Signature of the Authorized Government Ordering Official (AGOO) — contracting officer, or card holder name for credit card orders
- Name and phone number of the AGOO
- Name of the issuing agency
- Name of the ordering agency, if different
- Order number, set by the ordering agency
- Contractor name and SEWP VI contract number

- Appropriation and accounting data
- Billing and invoice address
- Shipping address
- SEWP VI CLIN and product descriptions to be delivered
- Total order amount
- Any mutually agreed terms and conditions, statement of work, etc.
- Period of performance

Support after delivery. For OM Group's policy on technical support, software support and all post-delivery services, contact our SEWP VI Program Manager.

About OM Group Inc.

OM Group is a Woman-Owned Small Business and a mission-focused technology partner supporting federal programs across critical domains. We combine deep technical expertise with a strong sense of responsibility toward the missions we serve, ensuring every system we build delivers reliability, clarity and long-term value.

Established in 2001, OM Group has been providing software and technology solutions that address real operational needs across industries including retail, pharmaceuticals, media and telecommunications. Our solutions are built to help customers achieve their goals efficiently, effectively and within the timelines that matter.

We help federal programs modernize, secure and scale the systems that power their missions. Our capabilities span AI/ML, DevSecOps, cyber, application modernization and full-stack engineering — each shaped by real mission needs and proven delivery.

We have a history of excellence in performance, adaptability, communication and partnership, and we look forward to providing that same excellence to our SEWP VI customers.
